

COORDINATING PATIENT CARE FROM HEAD TO TOE

A FORUM FOR HEALTHCARE PROFESSIONS

Coordination of patient care impacts all areas of health care: physician, facility or the post-acute service provider. The Forum for Healthcare Professionals brings together leaders in these worlds to explain the challenges and solutions each encounters on a daily basis. It will also allow an opportunity for a sharing of ideas of what may be on the horizon and the legal and ethical issues involved in meeting these challenges.

PRESENTED BY:
